22 September 2019

Amazon has **ordered** 100,000 electric delivery vehicles from Rivian—the largest single order yet of electric delivery vehicles—with vans slated to start delivering packages to customers in 2021.

Electric Transit Buses

Global electric bus adoption is set to triple by 2025 Source Greentech Media

- **Tallahassee/Star Metro:** 4 in service, 15 more hitting streets any day now -> 33% of the way to City's commitment to a 100% electric fleet by 2035.
- **Broward County:** Nov. 2018: 1 cent sales tax approved for transit; Dec. 2018: Commitment to a 100% electric fleet by 2035 - 5 *BYD buses now on order*
- Pinellas Suncoast Transit Auth (PSTA) two BYD buses in operation, plans to order over 20 additional E Transit buses
- **Hillsborough County:** Voters' allocation of 45% of 1 cent sales transportation sales tax to HART upheld by BOCC ordinance.
 - *HART now awaits FL Supreme Court decision on whether sales tax funds can be allocated. Would increase agency budget by 2.5 times current level*
 - *Proterra under contract to build HART's 1st 10 electric buses*
- **Orlando** - 1st Electric Bus, 7 more late 2020 - *LYNX only FL transit agency to win 2019 Low No grant, \$1.961 million*

FL Department Environmental Protection finally releases \$166 mil VW Mitigation Plan

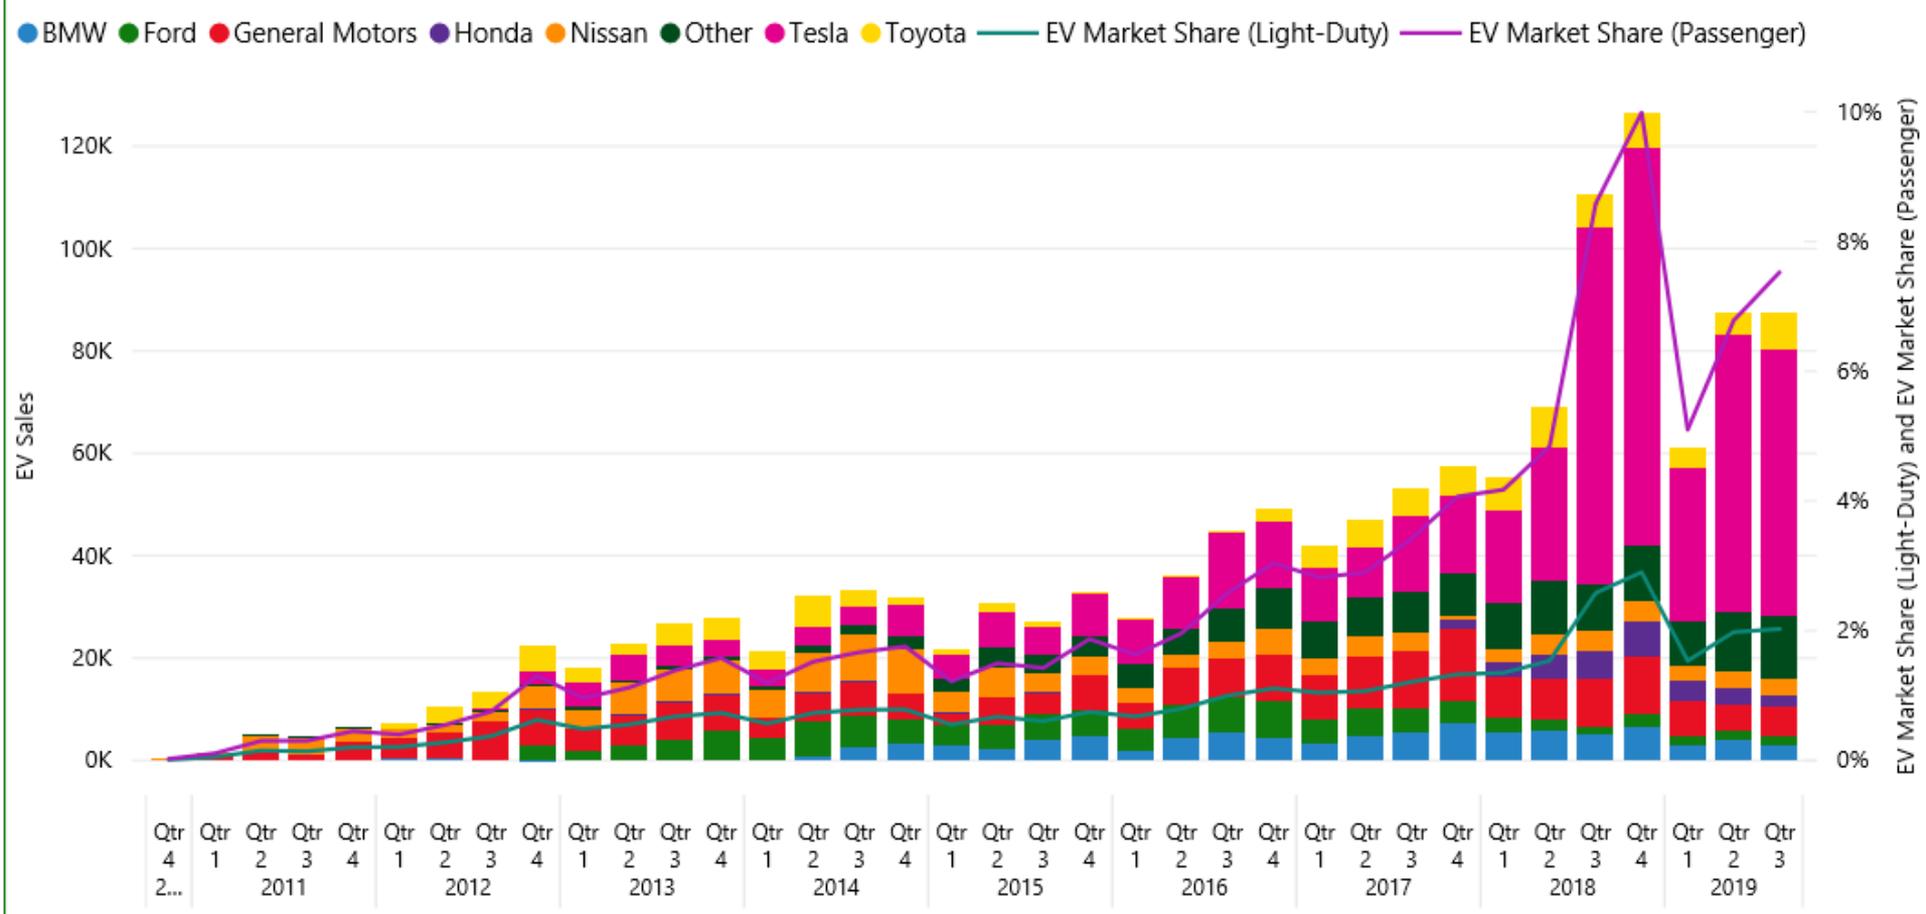

- 70% or \$116.4 mil to school, transit and shuttle bus replacements
- 15% or \$29.4 mil to EVCI or Electric Vehicle Charging Infrastructure
- 15% or \$29.4 mil to DERA

- RFI Process ended Nov 11th
- \$11 mil available 2019 fiscal year
- Legislature appropriates annual spend
- What's next?

The Market At A Glance

EV Sales and EV Market Share Over Time

- Total U.S. EV sales for 2019 0.5% higher than sales through the third quarter of 2018
- EV sales have declined for three months in a row compared to sales from a year ago
- Weak third quarter resulted in 21% decline in U.S. EV sales compared to 3rd qtr 2018

Federal Legislation

Drive America Forward Act

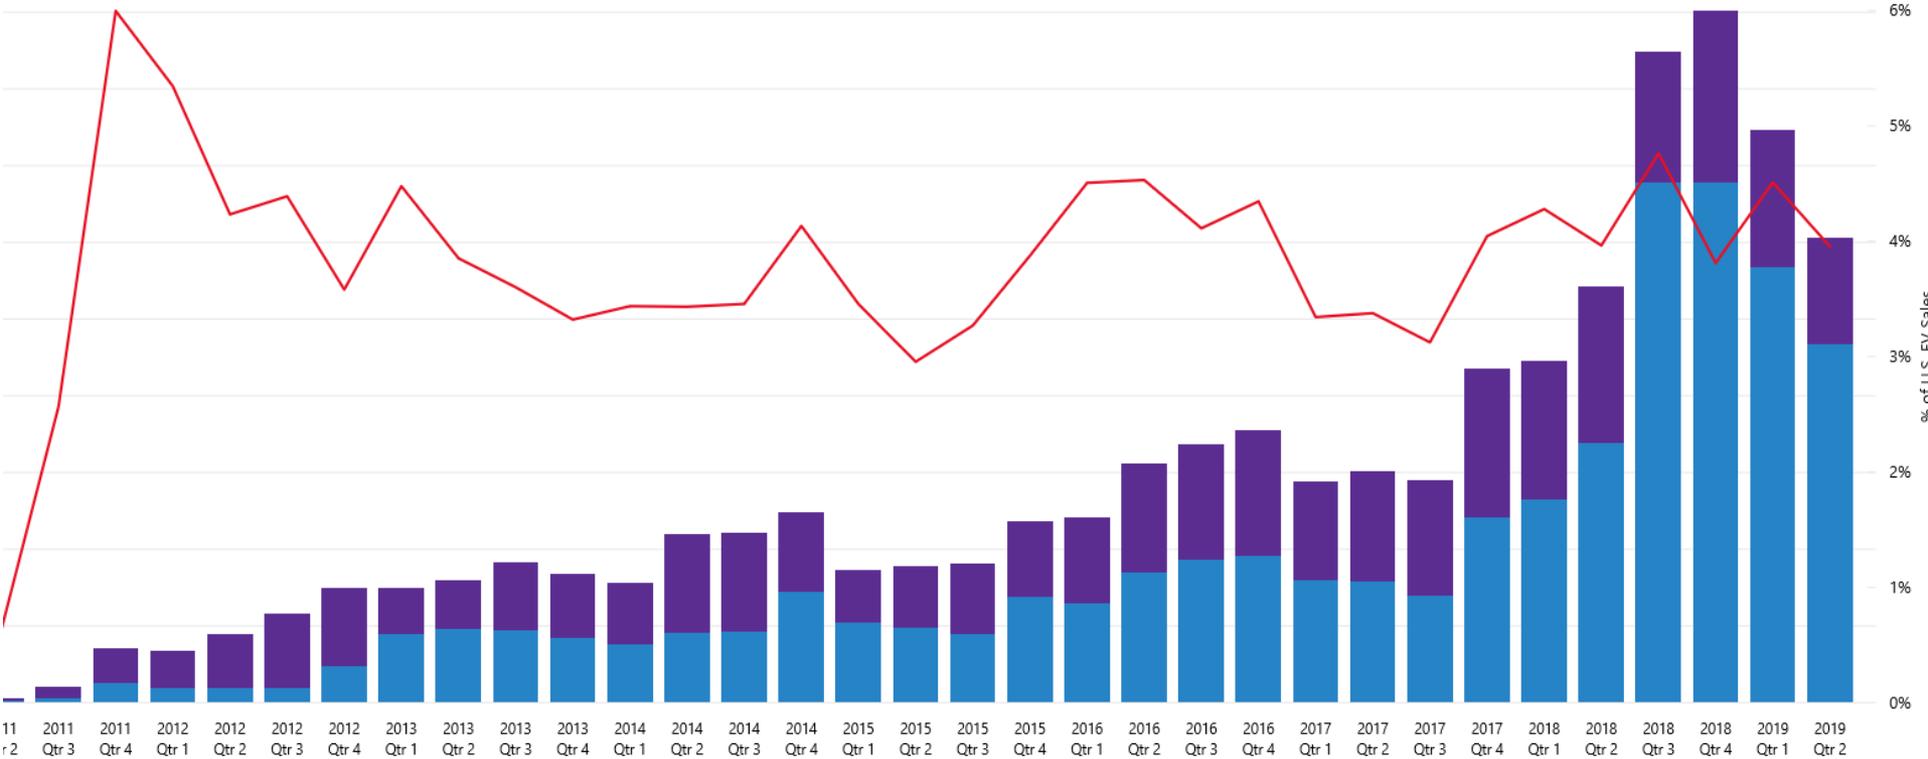

Introduced in Senate (04/09/2019) expands the tax credit for new plug-in electric **drive** motor vehicles and extends the tax credit for new fuel cell motor vehicles. ... The bill allows an additional 400,000 vehicles per manufacturer to be eligible for a credit of up to \$7,000 before the credit begins to phase out.
