WHY WORKPLACE CHARGING MATTERS

Many of your employees may be considering purchasing a plug-in vehicle. Workplace charging (WPC) provides great convenience for EV owners, and in some cases is essential for commuters.

As an employer, you have a **unique opportunity** to **show leadership** in this area by working with the building owner/manager to **provide workplace charging** for your employees.

WORKPLACE CHARGING FOR EMPLOYERS

EMPOWER
WORKPLACE CHARGING

WHY YOU SHOULD INSTALL WORKPLACE CHARGING

- Offering workplace charging as a benefit is an effective tool to recruit new employees
- Employees will appreciate the ability to charge their vehicle at work if they cannot at home
- Installing electric vehicle charging on-site can help your company reach sustainability goals

WORKPLACE CHARGING CONSIDERATIONS

- **What type** of charger will you install?
- **Where** will you install the charging unit?
- **What** kind of **electric capacity** will you need to install charging infrastructure?
- Do your **employees** want to have charging stations available to them?

**Don't know where to start?
We can help!**

EMPOWER YOUR WORKPLACE

Important Things to Note:

- **Contacting your local utility company early** in the process could lead to opportunities such as installation incentives and a way to learn the best practices for installation.
- Take advantage of your state's subsidies or **funding opportunities** for charging station installation if available.
