

Critter Comfort Cottage

Habitat Design Form & Photo

Must be submitted 10 days before EnergyWhiz

Submitted by (Team Name): _____

School: _____ Type of Animal: _____

Note: A photo of the habitat must be submitted with this form.

List any people you consulted and resources used to determine what is a suitable habitat for your selected 'critter'. Include in the list the person (with their qualification), book titles and website addresses used:

List any construction help that you received from non-team members (i.e. Home Depot staff, internet, parents, teacher, etc). Include in this section any help you had with power tools, plans you downloaded or items that you had pre-cut at a store or shop.

Person (or source)

What they helped you with

What recycled or re-purposed parts did you use?

Did you test your habitat with a live animal? If so, describe what happened

What energy conservation and/or renewable energy features did you use in your design?

Project Description

Provide a paragraph description of your project, including any special features you want the judges to notice.

Habitat photo

Submit a photo of the habitat that is to be judged during Energy Whiz when you submit this Design Form. Forms and photos submitted electronically should use the team name for email subject lines, photo names and pdf file names.

Email completed form and photo to: penny@fsec.ucf.edu
