These drawings and specifications are experimental in nature and the energy performance of the design has not been tested or evaluated in actual construction. The note that these houses were designed for use only in the State of Florida and may be more appropriate for use in other regions within the United States.

The Florida Solar Energy Center and the Design, Architectural, Judges, and Plans Designers, and others involved in developing these drawings and specifications are not responsible for the use of these plans and specifications for purposes other than those intended. Any implied warranties of merchantability or fitness for a particular purpose are hereby disclaimed.

FSEC/Construction assumes no liability for and by the use of these plans and specifications. This information, as well as the drawings, should be used by the purchaser at his own risk. The purchaser shall assume all risks of such use. The purchaser shall be solely responsible for the construction of the house and shall not be entitled to any refund of the purchase price.

FSEC/Construction does not authorize the sale of these plans and specifications. The purchaser is not authorized to sell, assign, or transfer these plans and specifications to any other person or entity.

All plans and specifications are subject to change without notice. The purchaser shall be responsible for any additional costs incurred as a result of such changes.

These drawings and specifications are intended to be used by qualified professionals. The purchaser shall be responsible for the compliance of the plans and specifications with all applicable laws, codes, and regulations.

All rights reserved. Reproduction or distribution of these plans and specifications without the written consent of FSEC/Construction is prohibited.
These drawings and specifications are subject to change due to unforeseen circumstances or design changes. It is important to consult with a professional architect or engineer for the most accurate information. The drawings are intended for informational purposes only and should not be relied upon for construction without the assistance of a licensed professional.
