

EMPOWER WORKPLACE CHARGING PLEDGE

The EMPOWER project seeks to accelerate the interest and support for Workplace Charging (WPC) nationwide and to ensure the benefits of vehicle electrification are distributed equitably. EMPOWER is a U.S. Department of Energy (DOE) funded project that aims to achieve greater electric vehicle (EV) sales nationally, increase energy resiliency, reduce greenhouse gasses, and lower barriers to EV adoption by increasing the number of employers currently offering WPC to their employees. Employers can pledge to join as an EMPOWER Workplace, demonstrating their commitment to provide EV charging access for employees. Employers who participate in EMPOWER range from organizations that are currently assessing employee needs for charging, to those who have successfully launched WPC programs. No matter where your organization is in the WPC evaluation and implementation process, EMPOWER can offer assistance along the way.

	Workplace Role	EMPOWER Partner Role
Pledge	Sign Workplace Charging Pledge.	Provide informational resources and technical assistance to support the EMPOWER Workplace in their pledge to install WPC and add them to the EMPOWER database.
Assess	Assess charging demand at worksite.	If charging stations have not yet been installed, provide technical assistance to aid with EMPOWER Workplace's efforts to assess employee demand for charging.
Collaborate	Work with EMPOWER Partner to help manage a successful workplace charging program.	Communicate upcoming funding possibilities and work to cultivate a relationship between the local power company and the EMPOWER Workplace.
Communicate	Announce support of workplace charging after completing a Site & Feasibility Assessment.	As the EMPOWER Workplace establishes a successful WPC program, report these accomplishments for promotion at events, in press releases, and digital outreach on the local, regional and national levels.
Share	Report workplace charging progress and plans to EMPOWER Partner on a periodic basis.	Throughout the life of EMPOWER, establish a network of EMPOWER Workplaces to foster information exchange and bolster the development of workplace charging.
Install	Document workplace installation to EMPOWER Partner.	Collect documentation of workplace charger installation and report this back to the EMPOWER program.

Workplace Charging Pledge: My organization is committed to the growth of plug-in hybrid and electric vehicles in the workplace and pledges to complete, when feasible, the requirements listed above.
